20. You will see the PowerPoint slideshow like below. It is very important that you press the PLAY button on the left side and not the NEXT button on the right because it is very sensitive and it will not say it is complete at the end unless you press PLAY! Also it's important that you go through each and every slide and do every activity including any videos you need to watch otherwise it will not let you pass or get your certificate at the end. Keep pushing PLAY to go through each slide and then take the quiz.
