Board of Directors
Integrated Services of Kalamazoo
Kalamazoo, Michigan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Integrated Services of Kalamazoo (the Authority), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of Integrated Services of Kalamazoo as of September 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of Authority's proportionate share of the net pension asset and contributions, and schedules of Authority's proportionate share of the net OPEB asset and contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the

required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations (CFR)* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of expenditures of federal awards, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2026 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

BDO USA, P.C.

Management's Discussion and Analysis

Integrated Services of Kalamazoo

Management's Discussion and Analysis

This section of Integrated Services of Kalamazoo's (the Authority) annual financial report presents management's discussion and analysis (MD&A) of activities and financial performance during the fiscal year ended September 30, 2025. Please review it in conjunction with the independent auditor's report, the financial statements, the notes to the financial statements, and the required supplementary information presented in this financial report.

Integrated Services of Kalamazoo, formerly known as Kalamazoo Community Mental Health and Substance Abuse Services, is an authority established by the state of Michigan and Kalamazoo County, Michigan to operate, control, and manage an integrated behavioral healthcare and substance abuse system in order to better serve its residents. The mission of the Authority is to promote and provide mental health, intellectual-developmental disability, and substance abuse resources that empower people to succeed. The vision of the Authority is to provide a welcoming and diverse community partnership that collaborates and shares effective resources that support individuals and families to be successful through all phases of life.

The information contained in this MD&A should be considered in conjunction with the information contained in the financial statements for the year ended September 30, 2025. This MD&A contains information on the basic financial statements of the Authority together with any required explanation that would be essential to acquire a full understanding of the data contained therein.

Financial Position Summary

Analysis of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position over time serves as a useful indicator of the Authority's financial position. The Authority's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$54,236,099 as of September 30, 2025. This represents an increase of \$7,766,995 from September 30, 2024, when the Authority's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$46,469,104.

Management's Discussion and Analysis

A condensed summary of the Authority's statement of financial position is shown below:

September 30,

	2025	2024	Change	Change (%)
Assets				
Current	\$ 44,906,660	\$ 37,656,174	\$ 7,250,486	19.3
Capital assets, net	17,557,036	17,801,622	(244,586)	(1.4)
Leases receivable	77,779	130,460	(52,681)	(40.4)
Net pension asset	4,879,110	5,412,320	(533,210)	(9.9)
Net other postemployment benefits asset	258,778	315,001	(56,223)	(17.8)
Total Assets	\$ 67,679,363	\$ 61,315,577	\$ 6,363,786	10.4
Deferred Outflows of Resources	\$ 5,631,314	\$ 5,399,473	\$ 231,841	4.3
Liabilities				
Current liabilities	\$ 11,123,837	\$ 11,679,148	\$ (555,311)	17.4
Long-term liabilities	5,178,243	5,781,229	(602,986)	(10.4)
Total Liabilities	\$ 16,302,080	\$ 17,460,377	\$ (1,158,297)	10.3
Deferred Inflows of Resources	\$ 2,772,498	\$ 2,785,569	\$ (13,071)	(0.5)
Net Position				
Net investment in capital assets	\$ 14,125,075	\$ 13,776,998	\$ 348,077	2.5
Restricted for pension benefits	8,722,022	9,336,676	(614,654)	(6.6)
Unrestricted	31,389,002	23,355,430	8,033,572	34.4
Total Net Position	\$ 54,236,099	\$ 46,469,104	\$ 7,766,995	16.7

The amount of the Authority's net investment in capital assets at September 30, 2025 is \$14,125,075, or 26.0%, of total net position. Unrestricted net position of \$31,299,022 represents 57.9% of total net position. The remaining net position of \$8,772,022, or 16.1%, represents amounts held in trust for payment of pension benefits in excess of the actuarial accrued liability for providing such benefits. The increase in total assets relates to the increase in the settlement amount due from Southwest Michigan Behavioral Health and an increase in cash due to an increase in revenue.

Net Position, end of year	\$ 54,236,099	\$ 46,469,104	\$ 7,766,995	16.7

Financial Operations Highlights

- The decrease in federal and state grants in 2025 was due to continued reduction in federal funding since the public health emergency was ended.
- The increase in salaries and wages, employee benefits, and staff development is due to expansion of the workforce in 2025 to meet service needs of the community as a CCBHC and expand access to care.
- The increase in payments to providers in 2025 was due to increased services to Medicaid-eligible individuals, particularly in autism services to eligible youth. ISK also experienced significant cost increases in community living services and inpatient services.
- In 2025, Michigan's Certified Community Behavioral Health Clinics (CCBHC) Demonstration operations resulted in a surplus of \$6,777,236. This surplus is due to an increase in the approved rate per day of service and increasing daily visits. Integrated Services of Kalamazoo expects that this rate per day will decrease in future based on 2025 cost per daily visit calculations.

Integrated Services of Kalamazoo

Management's Discussion and Analysis

Capital Assets and Long-Term Debt

Capital Assets

As of September 30, 2025, the Authority had approximately \$17.6 million invested in a variety of capital assets, as reflected in the following schedule:

<i>September 30,</i>	2025	2024
Land	\$ 827,021	\$ 827,021
Work-in-progress	13,547	671,569
Buildings and improvements	18,534,350	17,256,653
Equipment and furnishings	2,337,970	2,918,486
Vehicles	87,897	87,897
Right-of-use lease assets	3,907,463	3,907,463
Subscription-based information technology arrangements	970,854	970,854
	26,679,102	26,639,943
Less: accumulated depreciation	(9,122,066)	8,838,321
Property and Equipment, Net	\$ 17,557,036	\$ 17,801,622

For more information about the Authority's capital assets, see Note 3.

Long-Term Debt

At the end of the current fiscal year, the Authority had no debt outstanding. The schedule below represents compensated absences balances.

<i>September 30,</i>	2025	2024
Compensated absences	\$ 2,077,131	\$ 2,106,190
Total Long-Term Debt	\$ 2,077,131	\$ 2,106,190

Factors Impacting the Future

There are two major factors that will affect the future of the Authority.

Certified Community Behavioral Health Clinics

In 2016, the Michigan Department of Health and Human Services (MDHHS) applied to CMS to become a CCBHC Demonstration state under Section 223 of the federal Protecting Access to Medicare Act of 2014 (PAMA). That request was approved on August 5, 2020, when the federal Coronavirus Aid, Relief, and Economic Security Act of 2020 (CARES Act) authorized two additional states --Michigan and Kentucky --to join the demonstration. As a result, MDHHS was approved for a two-year demonstration that started on October 1, 2021. ISK was certified as a CCBHC certification site.

The CMS CCBHC Demonstration requires states and their certified sites to provide a robust set of coordinated, integrated, and comprehensive services to all persons with any mental illness or substance-use disorder diagnosis. Moreover, the demonstration requires and emphasizes 24/7/365

Integrated Services of Kalamazoo

Management's Discussion and Analysis

crisis response services (e.g., mobile crisis services). Other critical elements include, but are not limited to, strong accountability in terms of financial and quality metric reporting; formal coordination with primary and other care settings to provide intensive care management and transitions; linkage to social services, criminal justice/law enforcement, and educational systems; and an emphasis on providing services to veterans and active-duty service members. To account for these requirements, the state must create a Prospective Payment System (PPS) reimbursement structure that finances CCBHC services at an enhanced payment rate to properly cover costs and offer greater financial predictability and viability. The PPS is integral to sustaining expanded services, investments in the technological and social determinants of care, and serving all eligible Michiganders regardless of insurance or ability to pay.

Each year, management has submits CCBHC cost report to MDHHS that reflects actual expense and daily visits to calculate the payment per day for future years. The CCBHC funding during the demonstration have resulted in some years of surplus and some years of deficits. Overall, CCBHC has increased Integrated Services of Kalamazoo's net position. As MDHHS approaches the end of the demonstration, they are considering implementing a permanent CCBHC model.

National and State Shortage of Mental Health Professionals and Direct Care Wages

The behavioral health workforce functions in a wide range of prevention, healthcare, and social service settings. They include public and private prevention programs, community-based and inpatient treatment programs, primary care health delivery offices, systems and hospitals, emergency rooms, criminal justice systems, and school-based or higher education institutions. This workforce includes, but is not limited to, psychiatrists and other physicians; psychologists; social workers; advanced practice psychiatric nurses; marriage and family therapists; certified prevention specialists; addiction counselors; mental health/professional counselors; psychiatric rehabilitation specialists; psychiatric aides and technicians; paraprofessionals in psychiatric rehabilitation and addiction recovery fields (such as case managers, homeless outreach specialists, parent aides, etc.); and peer support specialists and recovery coaches.

The behavioral health workforce is one of the fastest growing workforces in the country. This is based on an expected increase in insurance coverage for mental health and substance-use services brought about by passage of health reform and parity legislation and the rising rate of military veterans seeking behavioral health services. Serious workforce shortages exist for health professionals and paraprofessionals across the United States.

The current wages that can be paid based on reimbursement rates are inadequate for CMHSPs and providers to compete with private businesses to recruit, hire, and retain direct care workers and Licensed Master Level Social Workers (LMSW). Low wages for direct care staff are contributing to the serious workforce shortages for paraprofessionals in the Authority's behavioral health and intellectual and developmental disabilities system of care. With increased competition from Hospital and Primary Care Physician groups to add LMSW staff for integrated and care coordination efforts, CMHSPs are needing to significantly increase wages for this large group of employees who deliver direct services.

Integrated Services of Kalamazoo

Notes to Financial Statements

1. Nature of Business and Summary of Accounting Policies

The financial statements of Integrated Services of Kalamazoo, formerly known as Kalamazoo Community Mental Health and Substance Abuse Services (the Authority), established under Section 205 of the Mental Health Code, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Authority's accounting policies are described below.

Reporting Entity

The Authority is a community mental health authority serving the mental health needs of Kalamazoo County residents.

Financial Statements

The financial statements report information on all of the activities of the Authority.

The operations of the Authority are accounted for as an enterprise fund (a proprietary fund), which is designed to be self-supporting. Enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Enterprise fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The enterprise fund is the Authority's primary operating fund and only fund. It accounts for all financial resources of the Authority.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Authority's operating fund are contract revenues from the Michigan Department of Health and Human Services (MDHHS) and first- and third-party billings. Operating expenses include

Integrated Services of Kalamazoo

Notes to Financial Statements

the cost of providing mental health and substance abuse services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

Deposits and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are carried at fair value except for commercial paper, banker's acceptances, and U.S. Treasury and agency obligations with a remaining maturity at the time of purchase of one year or less, which are shown at amortized cost.

State statutes authorize the Authority to invest in the accounts of federally insured banks, credit unions, and savings and loan associations; and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers' acceptances, and mutual funds composed of otherwise legal investments.

Receivables

Receivables consist primarily of amounts due from the state of Michigan for Medicaid billings, grant reimbursements, and amounts due from other agencies, governments, and organizations for services rendered.

Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses in the financial statements.

Capital Assets

Capital assets are defined as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded for reporting purposes at historical cost or estimated historical cost if constructed or purchased. Donated capital assets are recorded at estimated acquisition cost at the date of donation.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Category</u>	<u>Useful Life (Years)</u>
Buildings and improvements	25-40
Equipment and furnishings	3-20
Vehicles	5

Integrated Services of Kalamazoo

Notes to Financial Statements

The Authority reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset exceeds its fair value. If it is determined that an impairment loss has occurred, the asset is written down to its net realizable value and a current charge to income is recognized.

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and, therefore, will not be recognized as an outflow of resources (expense) until then. The Authority's deferred outflows of resources are related to the net pension asset and net other postemployment benefits (OPEB) asset.

Long-Term Debt

Long-term debt and other long-term obligations are reported as liabilities in the statement of financial position. Bond premiums and discounts are deferred and amortized over the life of the bonds on a straight-line basis, which approximates the effective interest rate method. Contracts payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expense when incurred. The Authority had no long-term debt at September 30, 2025.

Compensated Absences

It is the Authority's policy to permit employees to accumulate paid time off, subject to certain limitations. Any earned, but unused, paid time off is reported as a liability in the statement of financial position. The compensated absences balance at September 30, 2025 was \$2,077,131.

Unearned Revenue

Unearned revenue represents restricted programmatic funding not expended before year-end. It also includes that portion of the current-year MDHHS contract amount that may be carried over to and expended in subsequent fiscal years. Such carryover is generally limited to 5% of the MDHHS contract amount and must generally be spent in the following year.

Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and, therefore, will not be recognized as an inflow of resources (revenue) until that time. The Authority's deferred inflows of resources are related to the net pension asset, net OPEB asset, and future lease revenue.

Defined Benefit Plans

For purposes of measuring the net pension asset and net OPEB asset, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of the plans and additions to/deductions from the plans fiduciary net position have been determined on the same basis as they are reported by the plans.

Integrated Services of Kalamazoo

Notes to Financial Statements

For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Leases

Lessee

The Authority is a party to multiple leases of nonfinancial assets as a lessee. The Authority recognizes a lease liability and an intangible right-of-use (ROU) lease asset (lease asset) in the financial statements, included in capital assets being depreciated, net.

At the commencement of a lease, the Authority initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the Authority determines (1) the discount rate used to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The Authority uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Authority generally uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and a purchase option price that the Authority is reasonably certain to exercise.

The Authority monitors changes in circumstances that would require a remeasurement of its leases and will remeasure lease assets and liabilities if certain changes occur that are expected to significantly affect the amount of any lease liability.

Lessor

The Authority has leased to third parties multiple nonfinancial assets. The Authority recognizes a lease receivable and a deferred inflow of resources in the financial statements where applicable.

At the commencement of the lease, the Authority initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments receivable. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the Authority determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts. The Authority uses its estimated incremental borrowing rate as the discount rate for leases. The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable are composed of fixed payments from the lessee. The Authority monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the

Integrated Services of Kalamazoo

Notes to Financial Statements

lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Subscription-Based Information Technology Arrangements

The Authority is party to various subscription-based information technology arrangements (SBITAs). The Authority recognized a subscription liability and an intangible ROU subscription asset (subscription asset) in the financial statements. The Authority recognizes subscription liabilities with an initial term greater than 12 months. Remaining subscription terms are four years with fixed payments due annually. For SBITAs with a maximum possible term of 12 months or less at commencement, the Authority recognizes expenses based on the provisions of the arrangement.

At the commencement of a SBITA, the Authority initially measures the subscription liability at the present value of expected subscription payments to be made of the SBITA term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial measurement of the subscription liability, adjusted for payments associated with the SBITA contract made to the vendor at the commencement of the subscription term, plus any capitalizable initial implementation costs, less any vendor incentives received at the commencement of the subscription term. Subsequently, the subscription asset is amortized on a straight-line basis over the shorter of the useful life of the Information Technology (IT) asset or subscription term.

Key estimates and judgments related to SBITAs include how the Authority determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) the subscription term, and (3) subscription payments.

The Authority uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the Authority generally uses its estimated incremental borrowing rate as the discount rate. The subscription term includes the noncancellable period during which the Authority has a noncancellable right to use the underlying IT assets. The subscription term also includes periods covered by an option to extend if reasonably certain the Authority or vendor will exercise that option or to terminate if it is reasonably certain that the Authority or vendor will not exercise that option. Subscription payments included in the measurement of the subscription liability are composed of fixed payments.

The Authority monitors changes in circumstances that would require remeasurement of a SBITA and will remeasure the subscription asset or subscription liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets, and subscription liabilities are reported with long-term liabilities on the statement of financial position.

The Authority capitalizes qualifying initial implementation costs of \$5,000 or more as part of the subscription asset. Preliminary project stage outlays are expensed as incurred. Operation and additional implementation stage activities are expensed as incurred unless they meet specific capitalization criteria.

Integrated Services of Kalamazoo

Notes to Financial Statements

2. Deposits and Investments

Deposits and Investments

Following is a reconciliation of deposit and investment balances:

September 30, 2025

Cash and Investments

Statement of financial position:

Cash and cash equivalents	\$ 22,965,211
Investments	4,214,500

September 30, 2025

Deposits and Investments

Checking/savings accounts	\$ 22,964,431
Certificates of deposit (due within one year)	4,214,500
Cash on hand	780

Interest Rate Risk - Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of investments. The Authority's investment policy complies with state guidelines and seeks to minimize interest rate risk by investing primarily in short-term securities, liquid assets, money market funds, or similar investment pools and limiting average maturities. The policy does not place specific limitations on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The investment policy states that the investment portfolio shall remain sufficiently liquid to enable the Chief Executive Officer, Chief Financial Officer, and Finance Director to meet all operating requirements that may be reasonably anticipated. Maturities have been identified above for all of the Authority's investments.

Custodial Credit Risk, Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned. State law does not require, and the Authority does not have a policy for deposit custodial credit risk. As of September 30, 2025, \$27,602,105 of the Authority's bank balance of \$27,852,106 was exposed to credit risk because it was uninsured and uncollateralized.

Concentration of Credit Risk - State law limits allowable investments but does not limit concentration of credit risk. Except for U. S. Treasury securities and authorized investment pools, the Authority limits the amount invested in a single security type or single financial institution to be no more than 60% of the total portfolio. Safety is one of the primary objectives of the Authority's investment policy and seeks to ensure the preservation of principal in the overall portfolio. Diversification is required by the policy so that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio. At September 30, 2025, the Authority was in compliance with its approved investment policy.

Custodial Credit Risk, Investments - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require, and the Authority does not have a policy for investment custodial credit risk.

Integrated Services of Kalamazoo

Notes to Financial Statements

Credit Risk - State law limits investments to specific government securities, certificates of deposit and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers' acceptances of specific financial institutions, qualified mutual funds, and qualified external investment pools as identified in the list of authorized investments in the summary of significant accounting policies. The Authority's investment policy does not have specific limits in excess of state law on investment credit risk.

Fair Value Measurements - The Authority categorized the fair value measurements of its investments within the fair value hierarchy established by GAAP. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs—other than quoted prices—included within Level 1 are observable for the asset or liability, either directly or indirectly. Finally, Level 3 inputs are unobservable and are based on estimates and assumptions. These levels are determined by the management's review of the type and substance of investments held by the Authority.

3. Capital Assets

Capital asset activity is as follows:

September 30, 2025

	Beginning Balance	Additions	Disposals	Transfers	Ending Balance
Capital assets not being depreciated:					
Land	\$ 827,021	\$ -	\$ -	\$ -	\$ 827,021
Work-in-progress	671,569	39,383	(96,471)	(600,934)	13,547
	1,498,590	39,383	(96,471)	(600,934)	840,568
Capital assets being depreciated:					
Buildings and improvements	17,256,653	803,736	(126,973)	600,934	18,534,350

Vehicles	87,897	-	-	-	87,897
ROU lease assets	3,907,463	-	-	-	3,907,463
SBITAs	970,854	-	-	-	970,854
	25,141,353	1,055,594	(959,347)	600,934	25,838,534
Less: accumulated depreciation for:					
Buildings and improvements	(5,258,231)	559,521	126,971	-	(5,690,781)
Equipment and furnishings	(2,334,596)	(218,199)	832,374	-	(1,720,421)
Vehicles	(82,257)	(3,747)	-	-	(86,004)
ROU lease assets	(902,976)	(306,688)	-	-	(1,209,664)
SBITAs	(260,261)	(154,935)	-	-	(415,196)
	(8,838,321)	(1,243,090)	959,345	-	(9,122,066)
Capital Assets Being Depreciated, Net	16,303,032	(187,496)	(2)	600,934	16,716,468
Capital Assets, Net	\$ 17,801,622	\$ (148,113)	\$ (96,473)	\$ -	\$ 17,557,036

Depreciation expense is allocated in the statement of revenues, expenses, and changes in net position based on each asset's primary use. Depreciation expense was \$1,245,747 in 2025.

The estimated cost to complete the work-in-progress as of September 30, 2025 was \$15,000.

Integrated Services of Kalamazoo

Notes to Financial Statements

4. Defined Benefit Pension Plan

General Information About the Plan

Plan Description

The Authority participates in the Kalamazoo County Employees Retirement System (the Plan), a multi-employer, defined benefit pension plan that provides retirement and disability benefits to eligible plan members and beneficiaries. The Plan was established by the Kalamazoo County Board of Commissioners and is administered by the Kalamazoo County Retirement Investment Committee. Eligible employees include those holding regular positions, either full-time or part-time, of 20 hours or more per week. The Plan is controlled by state of Michigan law. Any changes to the Plan document must be approved by the Kalamazoo County Board of Commissioners and subsequently implemented by the Retirement Investment Committee and the County Administrator/Controller. The Plan issues a publicly available financial report that includes financial statements and required supplementary information. The financial report may be obtained by writing to the Office of Finance, County of Kalamazoo, Michigan, 201 West Kalamazoo Avenue, Kalamazoo, Michigan 49007.

Benefits Provided

Pension benefits vary by division/bargaining unit and are calculated as final average compensation (based on a five-year period with a maximum benefit of 75% of final average salary) and a multiplier of 2.5% (2.0% for employees hired on or after January 1, 2016). Participants are considered to be fully vested in the Plan after eight years. Normal retirement age is 55 with 25 years of service, or age 60 with eight years of service. Early retirement is available at age 55 with eight years of service with an age-reduction factor.

Employees Covered by Benefit Terms

Plan membership consisted of the following:

December 31, 2024

Inactive employees or beneficiaries currently receiving benefits	86
Inactive employees entitled to, but not yet receiving benefits	68
Active employees	414
Total Membership	568

The remainder of this page intentionally left blank.

Integrated Services of Kalamazoo

Notes to Financial Statements

Contributions

The employer is required to contribute amounts at least equal to the actuarially determined rate, which is adjusted on a calendar-year basis. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Employees of the Authority are not required to contribute to the Plan. Employer contributions are expressed as a percentage of covered payroll and vary by employment class:

Calendar Year	2025 (%)
Managerial	15.20
Professional	9.60
TOPS	5.77

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At September 30, 2025, the Authority reported an asset of \$4,879,110, for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2024, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation rolled forward from December 31, 2023. The Authority's proportion of the net pension asset was based on the present value of future benefits for each employer (which reflects the long-term obligation of each employer to the Plan) as of December 31, 2024. At December 31, 2024, the Authority's proportion was 23.44%.

For the year ended September 30, 2025, the Authority recognized pension expense of \$2,895,214. The Authority reported pension-related deferred outflows of resources and deferred inflows of resources from the following sources:

September 30, 2025

	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Deferred Outflows (Inflows) of Resources
Net difference between projected and actual earnings on pension plan investments	\$ -	\$ 750,270	\$ (750,270)
Differences between expected and actual assumptions	1,049,366	-	1,049,366
Changes in proportion and difference between employer contributions and share of contributions	1,103,852	729,646	374,206
Differences between expected and actual experience	1,294,575	-	1,294,575
	3,447,793	1,479,916	1,967,877
Contributions subsequent to the measurement date	1,875,035	-	1,875,035
Total	\$ 5,322,828	\$ 1,479,916	\$ 3,842,912

Integrated Services of Kalamazoo

Notes to Financial Statements

The amount reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as an increase in the net pension asset for the year ending September 30, 2026. Other amounts reported as pension-related deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending September 30,

2026	\$	729,384
2027		2,011,304
2028		(649,499)
2029		(123,312)
Total	\$	1,967,877

Actuarial Assumptions

The total pension asset in the December 31, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25% (which includes price inflation of 2.50%)
Salary increases	3.75% to 5.25%
Investment rate of return	7.25%
Mortality	The Pub-2010 Amount-Weighted, General and Safety, Employee, Healthy Retiree, and Disabled retiree, Male and Female tables, with future mortality improvements projected to 2025 using scale MP-2019.

The actuarial assumptions used in the December 31, 2024 valuation were based on the results of an actuarial experience study conducted in 2018, covering years 2019 to 2023.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (%)	Long-Term Expected Real Rate of Return (%)
U.S. Small-Cap (Manager 1)	5.00	3.88
U.S. Small-Cap (Manager 2)	10.00	3.88
International Developed Equity	10.00	5.03
U.S. Large-Cap (Manager 1)	30.00	3.68
U.S. Large-Cap (Manager 2)	5.00	3.68
Emerging Markets	10.00	4.68
Domestic Fixed Income	25.00	2.58
Real Estate (Manager 1)	2.50	4.28
Real Estate (Manager 2)	2.50	4.28

Integrated Services of Kalamazoo

Notes to Financial Statements

Discount Rate

The discount rate used to measure the total pension asset was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Authority contributions will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Asset to Changes in the Discount Rate

The following presents the net pension asset of the Authority, calculated using the discount rate of 7.25%, as well as what the Authority's net pension asset would be if it were calculated using a discount rate that is 1% lower (6.25%) or 1% higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Authority's Net Pension Asset	\$ 2,681,173	\$ 4,879,110	\$ 6,291,441

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued plan financial statements. These can be found at <https://www.kalcounty.gov>.

5. Defined Contribution Retirement Plan

When the Authority became a separate legal entity, it elected not to participate in the Social Security System. To provide its employees a similar retirement benefit, the Authority sponsored a 401(h) plan. Under the terms of this plan, both the Authority and its employees are required to contribute the same amounts that would be due if the Authority had elected to participate in the Social Security System. For the year ended September 30, 2025, the Authority and its employees each contributed \$2,256,556. The Authority is not a fiduciary with respect to the plan and, accordingly, assets and liabilities of the plan have been excluded from these financial statements.

6. Other Postemployment Benefits

Plan Description

The Authority participates in the Kalamazoo County Retiree Healthcare Plan, an employer financed retiree health benefit plan, which is administered by Kalamazoo County. The Authority establishes and amends the benefit provisions of the participants in the plan. Kalamazoo County issues a publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to Kalamazoo County.

Integrated Services of Kalamazoo

Notes to Financial Statements

Funding Policy

The Authority is required to contribute at an actuarially determined rate; the current actuarially determined contribution was \$0.

Employees Covered by Benefit Terms

Plan membership consisted of the following:

December 31, 2024

Inactive employees or beneficiaries currently receiving benefits	55
Active employees	46
Total Membership	101

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At September 30, 2025, the Authority reported an asset of \$258,778 for its proportionate share of the OPEB asset. The OPEB asset was measured as of December 31, 2024, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation from December 31, 2024. The Authority's proportion of the net OPEB asset was based on the present value of future benefits for each employer (which reflects the long-term obligation of each employer to the plan) as of December 31, 2024. At December 31, 2024, the Authority's proportion was (1.24)%. At December 31, 2023, the Authority's proportion was (7.50)%.

For the year ended September 30, 2025, the Authority recognized an OPEB benefit of \$347,621. The Authority reported OPEB-related deferred outflows of resources and deferred inflows of resources from the following sources:

September 30, 2025

	Deferred Outflows of Resources	Deferred Inflows of Resources	Net Deferred Outflows (Inflows) of Resources
Net difference between projected and actual earnings on OPEB plan investments	\$ 25,350	\$ -	\$ 25,350
Changes of assumptions	197,691	304,999	(107,308)
Differences between expected and actual experience	85,445	913,582	(828,137)
Total	\$ 308,486	\$ 1,218,581	\$ (910,095)

Integrated Services of Kalamazoo

Notes to Financial Statements

The amounts reported as OPEB-related deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Year ending September 30,

2026	\$	(392,324)
2027		(338,025)
2028		(152,175)
2029		(27,571)
Total	\$	(910,095)

Actuarial Assumptions

The total OPEB liability in the December 31, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.25% to 6.25%
Investment rate of return	7.25%, net of OPEB investment expenses <i>Non-Medicare</i> - Initial trend of 7.25% gradually decreasing to 3.50%.
Healthcare trend rates	<i>Medicare</i> - Initial trend of 6.50% gradually decreasing to 3.50%
Mortality	<i>Healthy Pre-Retirement</i> - The Pub-2010 Amount-Weighted, General, Employee, Male and Female tables, projected with mortality improvements using the fully generational MP-2021 projection scale from a base year of 2010. <i>Healthy Post-Retirement</i> - The Pub-2010 Amount-Weighted, General, Healthy Retiree, Male and Female tables, projected with mortality improvements using the fully generational MP-2021 projection scale from a base year of 2010. <i>Disability Retirement</i> - The Pub-2010 Amount-Weighted, General, Disabled Retiree, Male and Female tables, projected with mortality improvements using the fully generational MP-2021 projection scale from a base year of 2010.

The actuarial assumptions used in the December 31, 2024 valuation were based on the results of an actuarial experience study conducted in 2023, covering years 2019 to 2023.

The long-term expected rate of return on OPEB plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Integrated Services of Kalamazoo

Notes to Financial Statements

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (%)	Long-Term Expected Real Rate of Return (%)
U.S. Small-Cap (Manager 1)	5.00	3.88
U.S. Small-Cap (Manager 2)	10.00	3.88
International Developed Equity	10.00	5.03
U.S. Large-Cap (Manager 1)	30.00	3.68
U.S. Small-Cap (Manager 2)	5.00	3.68
Emerging Markets	10.00	4.68
Domestic Fixed Income	25.00	2.58
Real Estate (Manager 1)	2.50	4.28
Real Estate (Manager 2)	2.50	4.28

Discount Rate

The discount rate used to measure the total OPEB liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Authority contributions will be made at contractually required rates, actuarially determined. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net Other Postemployment Benefits Asset to Changes in the Discount Rate

The following presents the net OPEB asset of the Authority, calculated using the discount rate of 7.25%, as well as what the Authority's net OPEB asset would be if it were calculated using a discount rate that is 1% lower (6.25%) or 1% higher (8.25%) than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Authority's Net OPEB Asset (Liability)	\$ (59,534)	\$ 258,778	\$ 529,973

The remainder of this page intentionally left blank.

Notes to Financial Statements

Sensitivity of the Net Other Postemployment Benefits Asset to Changes in the Healthcare Cost Trend Rate Assumption

The following presents the net OPEB asset of the Authority, as well as what the Authority's net OPEB asset would be if it were calculated using healthcare cost trend rates that are 1% lower (6.50% decreasing to 2.50%) or 1% higher (8.50% decreasing to 4.50%) than the current healthcare cost trend rates:

	1% Decrease (6.50% decreasing to 2.50%)	Healthcare Cost Trend Rates (7.50% decreasing to 3.50%)	1% Increase (8.50% decreasing to 4.50%)
Authority's Net OPEB Asset	\$ 566,705	\$ 258,778	\$ 101,780

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in the separately issued plan financial statements. These can be found at <https://www.kalcounty.gov>.

7. Risk Management

The risks of loss arising from general liability, property, and crime are insured through participation in the Michigan Municipal Risk Management State Pool, a public entity risk pool currently operating as a common risk management program for government entities in the state of Michigan.

The Authority pays annual premiums to the State Pool for insurance coverage up to a maximum of \$15,000,000 for aggregate general liability claims and \$32,430,815 for property and crime claims. In the event of unusually high claims, the State Pool may assess member government units on a retroactive basis. The Authority purchases commercial insurance for risks of loss arising from employee health, medical, and workers' compensation claims. The Authority has had no settled claims resulting from these risks that exceeded its commercial coverage in any of the past three fiscal years.

8. Concentrations and Economic Dependency

Approximately 88% of total revenue is either directly or indirectly paid by or due from MDHHS.

9. Contingencies

Under the terms of various federal and state grants and regulatory requirements, the Authority is subject to periodic audits of its agreements, as well as a cost settlement process under the full management contract with the state. Such audits could lead to questioned costs and/or requests for reimbursement to grantor or regulatory agencies. The amount, if any, of expenditures that may be disallowed cannot be determined at this time, although the Authority expects such amounts, if any, to be immaterial.

Integrated Services of Kalamazoo

Notes to Financial Statements

As is the case with other entities, the Authority faces exposure from potential claims and legal proceedings involving environmental and other matters. No such claims or proceedings have been asserted as of September 30, 2025.

10. Net Position

Net Investment in Capital Assets

The Authority's net investment in capital assets is comprised of the following:

September 30, 2025

Invested in capital assets:	
Capital assets not being depreciated	\$ 186,216
Capital assets being depreciated, net	9,271,390
Investment in Capital Assets	9,457,606
Lease liability	(2,978,224)
Subscription liabilities	(17,919)
Total Net Investment in Capital Assets	\$ 6,461,463

Restricted Net Position

The Authority's restricted net position represents amounts held in a qualified trust for the purpose of providing pension benefits to qualified employees and retirees. The restricted amount related to pension benefits represents an excess of assets held in trust over the actuarial accrued liability for providing pension benefits. Since these amounts are held in trust, they cannot be accessed by the Authority or used at the Board's discretion.

11. Leases

Leases Payable

The Authority entered into leases for buildings and copiers with original lease terms ranging from two to 15 years. The leases went into effect on October 1, 2021. As of September 30, 2025, the outstanding balance on the leases was \$2,935,298. The Authority is required to make monthly principal and interest lease payments ranging from \$1,100 to \$26,650. The leases have an interest rate of 5%. The net value of the ROU assets as of September 30, 2025 was \$3,907,463 and had an accumulated amortization of \$1,209,664.

Integrated Services of Kalamazoo

Notes to Financial Statements

The future principal and interest lease payments as of September 30, 2025 are as follows:

Year ending September 30,

	Principal	Interest	Total
2026	\$ 179,812	\$ 143,179	\$ 322,991
2027	215,445	131,498	346,943
2028	198,682	121,118	319,800
2029	208,847	110,953	319,800
2030	219,532	100,268	319,800
2031-2035	1,278,080	320,920	1,599,000
2036-2038	634,900	32,142	667,042
Total	\$ 2,935,298	\$ 960,078	\$ 3,895,376

Leases Receivable

The Authority leases various buildings to third parties. The leases are for terms ranging from four to 15 years, and the Authority will receive monthly payments ranging from \$1,810 to \$2,750. The Authority recognized \$70,402 in lease revenue for the year ended September 30, 2025. As of September 30, 2025, the Authority's receivable for lease payments was \$77,779. The Authority recognized a deferred inflow of resources associated with the lease of \$74,001 at September 30, 2025, that will be recognized as revenue over the remainder of the lease terms.

12. Subscription Liabilities

Changes in subscription liabilities are as follows:

September 30, 2025

	Balance, Beginning of Year	Additions	Deductions	Balance, End of Year	Amounts Due Within One Year
Subscription liabilities	\$ 829,579	\$ -	\$ (332,916)	\$ 496,663	\$ 151,037

The future principal and interest SBITA payments as of September 30, 2025 are as follows:

Year ending September 30,

	Principal	Interest	Total
2026	\$ 151,037	\$ 22,243	\$ 173,280
2027	146,721	14,559	161,280
2028	154,196	7,084	161,280
2029	44,709	652	45,361
Total	\$ 496,663	\$ 44,538	\$ 541,201

1. Defined Benefit Pension Plan

Schedule of Authority's Proportionate Share of the Net Pension Asset

The amounts presented for each fiscal year were determined as of December 31 of the preceding year.

The Government Accounting Standards Board (GASB) 68 was implemented in fiscal year 2015. This schedule is being built prospectively. Ultimately, ten years of data will be presented.

Schedule of Contributions

GASB 68 was implemented in fiscal year 2015. This schedule is being built prospectively. Ultimately, ten years of data will be presented.

Valuation Date	December 31, 2023
----------------	-------------------

Methods and assumptions used to determine contribution rates (2025, based on the December 31, 2023 actuarial valuation):

Actuarial cost method	Individual entry-age normal cost
Amortization method	Level percentage of payroll, open period
Remaining amortization period	Ten years
Asset valuation method	Market value with five-year smoothing
Inflation	3.25%
Salary increases	3.25% to 5.25%
Investment rate of return	7.25%, net of investment and administrative expense, including inflation.
Retirement age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2019 valuation pursuant to an experience study of the period 2014 - 2018.
Mortality	The Pub-2010 Amount-Weighted, General and Safety, Employee, Healthy Retiree, and Disabled retiree, Male and Female tables, with future mortality improvements projected to 2025 using scale MP-2019.

Healthcare trend rates	Non-Medicare: Initial trend of 7.25% gradually decreasing to 3.50% Medicare: Initial trend of 6.50% gradually decreasing to 3.50%

Single Audit Act Compliance

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Integrated Services of Kalamazoo
Kalamazoo, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Integrated Services of Kalamazoo (the Authority), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated March 25, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

BDO USA, P.C.

March 25, 2026

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

Integrated Services of Kalamazoo
Kalamazoo, Michigan

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Integrated Services of Kalamazoo's (the Authority) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the Authority's major federal programs for the year ended September 30, 2025. The Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended September 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified opinions on compliance for each major federal program. Our audit does not provide a legal determination of the Authority's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the Authority's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Authority's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in

internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Integrated Services of Kalamazoo

Notes to Schedule of Expenditures of Federal Awards Year Ended September 30, 2025

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Integrated Services of Kalamazoo (the Authority) under programs of the federal government for the year ended September 30, 2025. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Authority.

2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

3. Indirect Cost Rate

For purposes of charging indirect costs to federal awards, the Authority has not elected to use the 15% de minimis cost rate as permitted by the Uniform Guidance.

4. Reconciliation to Financial Statements

Year ended September 30, 2025

Federal and state grants per financial statements	\$	9,263,110
Less: state grants		(3,812,718)
Expenditures of Federal Awards	\$	5,450,392

Integrated Services of Kalamazoo
